Meriben Park CJ

(ALinne x ARBMahatma)

Dam: Meriben Park Caroline 2068

- The **highest Genetic Merit** cow selected to date as an Aussie Red bull dam

Cow ABV V's Breed average	APR	ASI	Litres	Pro kg	Pro %	Bfat kg	Bfat %
* ARDB Breed average ABV	35	21.5	+ 76.4	+ 3	+ 0.02	+ 4.7	+ 0.02
Herd ABV of AXBCJ	57	33	+ 66	+ 4	+ 0.05	+ 6	+ 0.04
Dam of AXBCJ	201	148	+ 783	+ 24	+ 0.10	+ 28	- 0.10

- Highest **ASI cow at 148** selected to date, previous highest cow at ASI 130 is the dam ARBLippman
- Highest protein ABV** cow used to date **at +24 kgs** with a **+0.10%** deviation
- Highest feed efficiency** cow used to date, producing **1.32kgs/ms per kg bw** last season in a 400 cow herd, pasture based system, feeding 1.2 tonne supplements.
- 8706 lts, 315 kg pro & 359 kg B/fat
- Average PI 128** over 4 lactations
- Last herd test on 8/04/2013 at 236 days, **28.7 lts @ 4.20% B/fat & 4.05% Protein**, ICC 103
- Caroline 2068 is a cow that you never see go through the dairy
- The maternal line all displayed excellent workability's, temperament & milking speed.
- She, like her maternal line are capacious cows, at breed average in statue

Sire: A Linne, When doing the mating for this cow, we had to look at what we believed would return the best result. A Linne is an Orryard son with much better health traits, fertility, calving ease, temperament, milking speed udders and type than his sire. These attributes combined with the high efficiency, production and genetic merit of AXBCJ's dam, made A Linne an ideal choice to use as the sire of CJ.
