

Hamilton's Run

“THERE’S A FIRST TIME FOR EVERYTHING!”

Hamilton’s Run of Mount Gambier, SA has a surplus of March 2012 calving cows and heifers, and we are offering 21 registered Australian Red Breed Dairy females for sale.

Our Australian Red herd is currently:

- Equal second top-ranking ABV in Australian Red Dairy Breed
- Highest milk volume herd in Australian Red Dairy Breed
- Top protein producing herd in Australian Red Dairy Breed
- Johnes score 7
- EBL Monitored Free (MF)

Completed lactations for the whole herd as at 7/12/11 shows these averages:

- 9607 litres in 331 days per cow
- 643kg milk solids per cow
- Average age at last calving is 47 months

The mature cows are nearing dry off and will be vaccinated, dry cow treated and teat sealed, ready for transport during January 2012, allowing the buyer to settle them into the new location.

All head are pregnancy tested to calve between 21/3/12 and 1/4/12. Mature cows are carrying calves by progeny test Australian Red Dairy Breed bulls, while most of the heifers are in calf to Angus bulls. Individual sale cows have production up to 12,000 litres.

It’s our first time to have surplus animals for sale, so if you haven’t had red cows before, why not make it your first time to buy some?

PRICE: **\$2200.00 plus GST per head.**
