

2021 *Red On Farm Challenge*

CLASS 1- TWO YEAR OLD IN-MILK

BEAULANDS HATTRICK KATIE

Wins the class in a close placing over the lovely fresh 2yr-old in 2nd. Just has a little more width in the rear udder and rump and is longer overall than our 2nd place getter.

Owned by Sam Graham

BEAULANDS FILUR CITATION

Love the udder in this young cow. So much balance and dairyness throughout. Just uses that bloom in her rear udder to place over the super dairy young cow in 3rd.

Owned by Sam Graham

BEAULANDS FIMBE HILDA

Really have to admire the dairy quality in this young cow. She uses that little more refinement through the thigh and blending of fore udder to place over the cow in 4th.

Owned by Sam Graham

MOYOLA POPPY 21

Strength throughout this young cow. Balance through the front end and quality of udder places her over the rest of the class.

Owned by Warren Gallagher

2021 *Red On Farm Challenge*

CLASS 2- THREE YEAR OLD IN-MILK

BEAULANDS FOSKE KATIE

Wins the class quite comfortably. She has that lovely veination and texture in her udder, and lots of spring to her rib. Just a bit more youthfull in the udder than our 2nd place getter.

Owned by Sam Graham

DAIRY BIRDIE 4484

So much strength and dairyness in this cow. Long square rump with a terrific udder.

Owned by M & M Downes

BEAULANDS FOSKE KATIE

Love the length of frame in this young cow and her dairy quality. Not quite the bloom in the udder to get any higher today. She uses that overall length and depth of body to place over my 4th place
Owned by Sam Graham

MOYOLA MIDGE 20

A young cow with a big future. Not quite enough cow to get her any higher but with so much youth she has a lot of longevity and a great set of feet.

Owned by Warren Gallagher

2021 *Red On Farm Challenge*

CLASS 3- FOUR YEAR OLD IN-MILK

GINGER WARNES

WOW! So much to love in this cow. Beautiful udder. High and wide and full of milk. A long deep frame on a great set of feet and legs. She places over the fresh cow in 2nd, with just a bit more cow overall and that tremendous udder.

Owned by M & M Downes

BEAULANDS FONSECA PRINCESS

Really a lot to like in this young cow. Beautiful snug udder with plenty of bloom. She tracks better and has a more desirable set to her rear legs than the great uddered cow in 3rd.

Owned by Sam Graham

BEAULANDS FOSKE STRIMMA

This cow is a very large cow. Really balanced overall and has a great udder, particularly the fore udder. She uses that depth of rear rib and correct rump to place over my 4th cow.

Owned by Sam Graham

BONABY XENA

A cow that looks better on the move. High wide rear udder with correct teat placement.

Owned by Laurel Cameron

2021 *Red On Farm Challenge*

CLASS 4 - FIVE YEAR OLD IN-MILK

MOYOLA CHARITY 2

This cow wins the class in a close placing over the 2nd placed cow. She has terrific dairy quality throughout and a soft udder to match. She is better in her rear legs and feet than our 2nd place.

Owned by Warren Gallagher

BEAULANDS FOSKE BIRDIE

Have to really admire the frame on this 2nd placed cow. Long square rump. Welded on fore attachment. She uses that length of fore udder and body depth to place over the 3rd cow.

Owned by Sam Graham

MOYOLA XENA 38

This cow walks really well. Walks past her udder well. She has more balance through the floor of her udder than the strong cow in 4th.

Owned by Warren Gallagher

HILLY LINDA 4000

Really a strong cow that still has refinement and plenty of bloom in that udder. Just like to tuck her front teats under a touch to get her any higher.

Owned by M & M Downes

2021 *Red On Farm Challenge*

CLASS 5- MATURE COW IN-MILK

MOYOLA ANGEL 47

A REALLY CLOSE CLASS. Lots of different ages and stages in this one. This cow for me wins with her overall correctness. She walks very well, you can see her correct rump and hard top. Strong udder attachments. She is more correct through her rump than the fresh cow in 2nd.

Owned by Warren Gallagher

BEAULANDS CIGAR LINDA

So much youthfulness in this cow's udder, especially for her age. Clean through her thigh to maximize her udder width. She has a bit more strength throughout, depth of rear rib and a better fore attachment, placing her over the cow in 3rd.

Owned by Sam Graham

MOYOLA HONEY 43

Great rear udder on this aged cow. She tracks better on her rear legs than the cow in 4th.

Owned by Warren Gallagher

EUROMA MEESON EMILY

Taking nothing away from this older cow. Such a lovely flat boned dairy cow. Not quite the strength in the udder to get above the other three cows today.

Owned by Sean Tomkins

OVERALL COMMENTS

THANK YOU

Thanks must go to Sam Graham for organising this challenge in a time when many if not most competitions have been cancelled. I have enjoyed visiting and viewing the herds. The cows were of a high standard, especially the quality of the udders.

Thank you to those who submitted videos and took the time to send them in, they were great quality. Thanks to everyone who cut cows out for me to judge. You all have some great cows and some great cows to breed from.

**Your Judge,
Hayley Boyd.**
