

Viking Red Sires- Making their mark

Viking Reds, once again have performed exceptionally well in the latest proof run with so many different sires dominant in all categories. Of course most of Australian bred proven sires are produced from the Viking sires which supports the faith the Australian dairy man and other companies have in the Scandinavian genetics. Peterslund is still strong at #2 on APR and #1 reliability sire with over 700 Australian daughters in his ABV. Orraryd, Botans and B Jurist are still excellent sires after being in the top for so many years. Orraryd is the #1 Australian proven sire for Type. The future is assured for the red population with even higher internationally sires like G Edbo, Asmo Tosikko, R David, R Bangkok and many others to take the Aussie Red breed into the future and also sires of domestically proven bulls.

The recent tour of Denmark and Sweden in April impressed all with the strength, type and health profile coupled with high production of the Viking dairy breeds.
